

speed velocity acceleration graphs pdf

Speed, velocity and acceleration. Speed and distance-time graphs. Speed is measured in metres per second (m/s) or kilometres per hour (km/h). If an athlete runs with a speed of 5 m/s, she will cover 5 metres in one second and 10 metres in two seconds.

A velocity-time graph provides information on speed or velocity, acceleration and distance travelled. Steady velocity is shown by a horizontal line. Steady acceleration is shown by a line sloping up. In the graph above left, the object is already moving when the graph begins.
