
Differential Geometry Lightlike Submanifolds Frontiers Mathematics

differential geometry of lightlike submanifolds - in case of lightlike submanifolds, its geometry is quite different than the counterpart of non-degenerate submanifold. highlight this, in Duggal-Bejancu's book [149] there is a discussion on ... **differential geometry of lightlike submanifolds - preamble** - frontiers in mathematics differential geometry of lightlike submanifolds bearbeitet von krishan l. duggal, bayram sahin 1st edition. 2010. taschenbuch. 488 s. paperback **differential geometry of lightlike submanifolds - toc** - frontiers in mathematics differential geometry of lightlike submanifolds bearbeitet von krishan l. duggal, bayram sahin 1st edition. 2010. taschenbuch. 488 s. paperback **transversal lightlike submanifolds of metallic semi ...** - lightlike submanifolds are one of the most interesting topics in differential geometry. it is well known that a submanifold of a riemannian manifold is always a riemannian one. **screen semi-invariant half-lightlike submanifolds of a ...** - the geometry of lightlike submanifolds a semi-riemannian manifold was presented in [1] (see also [2]) by k.l. duggal and a. bejancu. differential geometry of lightlike submanifolds was presented in [11] by k. l. duggal **reduction of the codimension for lightlike isotropic ...** - a natural generalization of the pioneering work by gauss in differential geometry was the study of submanifolds $f : m^n \rightarrow r^{n+p}$, of arbitrary codimension p immersed into euclidean $(n+p)$ -spaces. **lightlike submanifolds of semi-riemannian manifolds** - the purpose of this paper is to initiate a study of the differential geometry of lightlike (degenerate) submanifolds of semi-riemannian manifolds. we construct the transversal vector bundle for ... **lightlike submanifolds of semi-riemannian manifolds and ...** - on lightlike submanifolds, the scope of applications has been limited to interaction with some results on killing horizon, electromagnetic and radiation fields and asymptotically flat spacetimes. **minimal half-lightlike submanifolds of a semi-riemannian ...** - the geometry of lightlike submanifolds a semi-riemannian manifold was presented in [7] (see also [8]) by k.l. duggal and a. bejancu. differential geometry of lightlike submanifolds was presented in [17] by k. l. duggal **volume 6 age lightlike submanifolds of a semi-riemannian ...** - studied geometry of classes of lightlike submanifolds in indefinite kähler and indefinite sasakian manifolds which is an umbrella of cr-lightlike, scr-lightlike, screen real gcr-lightlike submanifolds. **on total mean curvatures of foliated half-lightlike ...** - we give generalized differential equations relating to mean curvatures of a totally umbilical half-lightlike submanifold admitting a totally umbilical screen distribution, and show that they are generalizations of those given by [4]. 1. introduction the rapidly growing importance of lightlike submanifolds in semi-riemannian geometry, particularly lorentzian geometry, and their applications ... **quasi generalized cr-lightlike submanifolds of** - on the subject, focusing on screen and generic lightlike submanifolds ([12], [13]). thus, the absence of evidence of research in the geometry of lightlike submanifolds of nearly sasakian manifolds and the fact that ξ belongs to the tangent bundle **samuel ssekajja quasi generalized cr-lightlike ...** - geometry of lightlike submanifolds was introduced by bejancu and duggal [7] and later studied by many authors [8,10,11,13,14,16] and references therein. in [10], the authors initiated the study of generalized cauchy-riemann (gcr) lightlike submanifolds of **differential geometry of lightlike submanifolds by duggal ...** - differential geometry of lightlike submanifolds by duggal k sahin b ebook differential geometry of lightlike submanifolds by duggal k sahin b currently available at hadleybeeman for review only, if you need complete
